If you like "rolling the bones", you'll love Craps at Seven Feathers!

The first gambling "bones" were huckle bones from the back legs of animals. Antelope huckle bones were the prized dice of the prehistoric world. Six-sided dice came later: the earliest example - 5,000 years old - was found in Iraq.

Fast forwarding to the early 700s, Saracen warriors invaded Corsica, bringing the Arab game Az-zahr (meaning dice) with them. Az-zahr spread around Europe under the name Hazard. Hazard was more complex than modern Craps. Players had difficulty memorizing the winning and losing combinations - known as "Ins" and "Outs". Fortunately, Hazard crossed the Atlantic, where African American longshoremen in New Orleans simplified it.

As the game changed, so did the name. When Hazard arrived in the Americas, a 1 and a 1 on each die was called "crab-eyes" or "crabs". French Louisianans pronounced it Craps. The name stuck, and the new game got "on a roll".

Our craps table at Seven Feathers is unique. With a \$3 minimum and a \$1,000 maximum, we cater to both new players and the highest rollers in Oregon, and we're always looking for hot rollers!

Until next time,

Craig McDonald
